'THIS IS THE TOOTH THAT CAME OUT LAST WEEK. WHY?'

"NO, I'M NOT BACK FROM TEXAS ALREADY!
I FORGOT MY TOOTHBRUSH!"

* I DON'T CARE IF YOU ONLY GOT ONE TOOTH...
YA GOTTA BRUSH IT! *

REMEMBER PALS!

BRUSH YOUR TEETH
THE WAY THEY GROW...
DOWN FROM THE TOP...
UP FROM BELOW.
HERE'S HOW!

1 Brush the tops (chewing surfaces) of your upper and lower teeth first. Use a short back and forth stroke. Isn't this fun!

2 Brush the outside, then the inside of your upper teeth. Place bristles toward your gums. Roll your brush DOWN. Whee!!

3 Brush the outside of your lower teeth. Swing brush UP. Reach way back to the very last tooth. Way back!

4 Now brush the inside of your lower teeth. Brush UP! And don't forget, brush all your teeth after every meal. That's best!
